

INDEX TAB INSTRUCTIONS

- 1) Line up the top of this page with the top of the first page of the book of Genesis/Bere'shiyth making sure it's straight all the way down.
- 2) Remove the adhesive backing on the tab for Genesis/Bere'shiyth, and align it with the first mark on the right.
- 3) Carefully place it on the front side of the page and then gently fold it over to the back side, making sure it's straight before pressing firmly to secure.
- 4) Repeat this process with the tab for Exodus/Shemoth, aligning it with the second mark on the right, and so on with the remaining books. Refer to the photo below as an example of what your CEPHER will look like when finished.

NOTE: To reflect a more accurate chronology, starting with the 3rd Edition, Revision 2.1 CEPHER, the Tephillah Menashsheh (The Prayer of Manasseh) has been moved to the Second Temple section in the Table of Contents.
